

SUBRAMANYAM POLUBOYINA

.NET Full Stack Developer

+91 6302455406 | poluboyinasubramanyam69@gmail.com | Kadapa, Andhra Pradesh, 516150

SUMMARY

Full Stack Developer with over 3 years of experience building scalable web applications using ASP.NET Core, Angular. Skilled in designing high-performance APIs, optimizing complex SQL queries and handling large-scale data operations under high concurrency. Strong understanding of system design concepts and proven ability to deliver secure, efficient and production-ready solutions in enterprise environments.

SKILLS

Languages: C#, TypeScript, JavaScript, Java

Frameworks: ASP.NET Core, Angular, Bootstrap, Angular Material

Database: MySQL, MS SQL

Tools: Azure DevOps, Jira, Postman

WORK EXPERIENCE

Deloitte

Hyderabad

Analyst

Oct 2025 - Present

- Refactored synchronous APIs to fully asynchronous patterns, eliminating request blocking and reducing peak-load timeouts by 50%.
- Optimized high volume SQL stored procedures, improving query performance and reducing API response time under concurrent load.
- Contributed to monorepo-based architecture improving code sharing and deployment consistency across modules.
- Built business workflow layer eliminating direct database manipulations and improving system integrity.
- Generated production-scale synthetic data in lower environments to simulate real-world load, enabling effective performance testing and scalability validation.

DXC Technology

Hyderabad

Analyst II Software Engineering

Mar 2023 – Oct 2025

- Engineered a scalable Single Page Application (SPA) from 10+ user stories, collaborating closely with stakeholders to translate business requirements into high performance, production ready features.
- Architected modular Angular applications using workspace architecture, significantly improving code reusability, maintainability and development velocity.
- Built 50+ ASP.NET Core Web APIs with transactional consistency using Entity Framework and integrated 100+ REST APIs, enhancing data flow and application performance.
- Strengthened system security and reliability by implementing JWT based authorization, user-level rate limiting and CAPTCHA based login to prevent abuse and handle high concurrent traffic.
- Optimized complex reporting stored procedures to support real-time Power BI dashboards with high data accuracy.
- Delivered responsive, cross platform UI experiences using Angular Material and Bootstrap, while working in an agile team environment to resolve 150+ issues and ensure timely releases.

EDUCATION

Annamcharya Institute of Technology and Sciences
Bachelor of Technology (Computer Science and Engineering)

Rajampet
2018-2022

CERTIFICATION

- AWS Certified Cloud Practitioner
- Microsoft Certified Azure Fundamentals (AZ-900)

LANGUAGES & INTERESTS

Languages: Telugu (Native), English
